

## HOBY Ohio South Corporate Board Policy #2022-01

### FY22 COVID-19 Vaccination Policy

Adopted September 28, 2021

#### Purpose

To safeguard the health and well-being of our ambassadors, our volunteers, our hosts at Marietta College, and the community at large, and in consideration of guidance released by the United States Centers for Disease Control and Prevention (CDC) and the Ohio Department of Health, HOBY Ohio South will require all participants at in-person events during FY22 to be fully vaccinated against COVID-19.

#### Scope

This policy applies to all HOBY Ohio South in-person events and activities during FY 2022 (September 1, 2021–August 31, 2022), including but not necessarily limited to the leadership seminar, CLeWs, alumni activities, and volunteer meetings.

#### Policy

1. All participants in HOBY Ohio South events held in person, including but not necessarily limited to ambassadors, volunteers, speakers, and guests, must be fully vaccinated against COVID-19 prior to the event.
2. Individuals are considered to be fully vaccinated if they meet the CDC guidelines which are in effect at the time of the event. Those guidelines currently are:
  - a. 15 days after their second dose of a two-dose series vaccine, such as the Pfizer–BioNTech or Moderna vaccines
  - b. 15 days after a single-dose vaccine, such as Johnson & Johnson’s Janssen vaccine
  - c. After receiving a World Health Organization (WHO)-approved vaccination in accordance with the manufacturer’s instructions
3. In order to participate in a HOBY event, participants must submit documentation of their vaccination to HOBY Ohio South at least one week prior to the event. This must be in the form of a CDC vaccination card, an equivalent document from a foreign government, or an official record from a healthcare provider indicating the type and date of vaccinations administered. HOBY Ohio South in its sole discretion shall determine whether or not the form of documentation is sufficient to verify vaccination.
